Requesting Fire Investigators from the State Fire Marshal's Office

Fire Investigators assigned to the Investigation Division of the New Mexico State Fire Marshal's Office are empowered by state statute (NMSA 59A-52-10) to investigate all fires deemed necessary statewide. A request for a fire investigator may be made if a fire is considered suspicious or a local department needs assistance with a fire investigation.

To request a fire investigator:

During Normal Office Hours Monday – Friday 8:00 a.m. – 5:00 p.m.

Call the State Fire Marshal's Office at 1-800-244-6702 and ask to be connected with the Investigation Division. In the event that there is no one to take your call, contact State Radio Communications at (505) 827-9377, and ask the dispatcher to contact the On-Call Arson Investigator.

After Normal Business Hours

There is an investigator on call 24 hours a day, 365 days a year. After normal business hours, weekends, and on holidays call State Radio Communications at (505) 827-9377. Ask the dispatcher to contact the Investigator on call. You will need to provide a call back number to the dispatcher.

When the investigator contacts the caller, he will need the following information:

1. Whom he is to meet.
2. A location where to meet the person requesting assistance.
3. A phone number where he can reach the caller, in the event he needs to contact him/her before arriving at the scene.

The investigator will provide an estimated time of arrival. Be sure to have somebody at the location at the approximate time the investigator should arrive. The investigator can follow that individual to the scene. All investigators are equipped with two-way radios and have many fire and law enforcement frequencies programmed into them. As your frequency may not be in our radios, radio communications should be on the following frequencies.

State Fire (154.310)

State Police Car to Car (155.550)

Investigators may be contacted at the following numbers if necessary.

Name	Digital Pager	Telephone#
Dan Wright	(505) 939-3225	Cell (505) 470-1864
Gilbert Archuleta	(505) 939-0154	Cell (505) 470-1106

As the numbers and personnel are subject to change, contact through State Radio Communications is the preferred way to contact the investigator on call any time other than normal business hours.
